Policies for Future Date Changes (status open tickets) and Refunds

B2B and B2T International POS

Future Changes and Refund

When changing the open status ticket, follow the instructions for changes given before. This procedure needs to be done before the date of flight. The ticket can't be in status open and needs to have a new date before the expiration. Since only one change without any cost is allowed, when changing the validation of the ticket is required, follow the rules and procedures for changing dates. (previously described).

¹ For tickets that are in status open, at the time of rescheduling, the rules to be followed will be those in effect on the rescheduling date.

² Rule valid for cancellations made voluntarily by the customer.

Domestic and International Flight Policies

Guidelines

Attention!

In the periods indicated in the tables, **the processes described above are valid for flights canceled by GOL or flights that GOL did not cancel or change but the customer makes a change order**. Thus, it is necessary that, for these clients contemplated by the policy, **when requested any alteration without fare difference**, on the part of the client, it must be done through the **involuntary process** so that the rules are applied and the charges are not generated. **When any change with a fare difference** is requested by the customer, it is done through the **voluntary process** so that the rules are applied and the charges are not generated.

Expired tickets until Apr 17

For customers with **tickets expired by Apr 17**, please advise the agencies to **contact the GOL call center**

No-show

For customers who are a no-show on flights canceled by GOL, the agency is free to exempt the customer from the no-show fee

High season

We consider the months of **July, December and January as high season and holidays** - including the day before and the following day of the holiday. We will forward more details of what is considered a holiday in each POS soon.
