

### OVERVIEW

A growing trend in the travel market is the “unbundling” of fares which result in airlines offering optional services to travelers for a fee, examples are premium seats and checked baggage fees. *Sabre Air Extras* provide you with tools to support your customer's request of these services.

As airlines enable cross-channel sale of their products, travelers need access to the growing number of ancillary services in their preferred channel, the Travel Agency. *Sabre®* has been on the forefront of providing *Air Extras* with our Pay for Seats product. One of the various touch points for *Air Extras* is a secondary availability screen (1\*A) which details applicable ancillary services.

*Sabre Connected<sup>SM</sup>* agencies can display ATPCO OC Optional Service filed fees in the secondary screen (1\*A) of the City Pair Availability.

### CITY PAIR AVAILABILITY

### FORMAT

*Sabre* provides the ability for *Air Extras* participating airlines to display a list of ancillary services or display a brief message about services in City Pair Availability (CPA) responses. The ancillary indicator (\*A) will appear for all flights that have an ancillary applicable to it. An ancillary may be applicable to a single flight leg (direct and/or non-stop) or multiple legs of a connection.

The secondary CPA screen (1\*A) will show the detail information of the ancillary service. These fee amounts are for informational purposes only.

## SEAT MAPS

## FORMAT

The *Sabre* Seat Map display has a new seat indicator and new responses when applicable. You will continue to use traditional seat map entries. The Seat Fee information is displayed in the seat fee banner. The Paid for Seats are indicated on a seat map with the letter "P", and a row indicator of "P". If the seat is reserved, the current symbol of "." (decimal) is displayed.

These fee amounts are **currently** for informational purposes only, except for United Airlines Economy Plus Seats, Midwest Airlines Signature Seats, and WestJet Seats.
