## Mobility During Curfew Hours in Guatemala

**Dear Travel Agencies,**

Copa Airlines informs that the Guatemalan Authorities have established a mobility restriction from 10:00 pm - 4:00 am.

In order to transfer passengers to or from the airport, a safe-conduct is required. To ensure the generation and authentication of such safe-conduct, the authorities have implemented the site [www.salvoconductoaeropuerto.com](http://www.salvoconductoaeropuerto.com) where the passengers must register at least 24 hours in advance.

Upon completion of the form, they will receive a QR code, by mail and/or text message that they must present printed or digitally, in case the authorities request it when they are going to/from La Aurora Airport in Guatemala.

We appreciate your support by informing your customers about this new measure.
