Fare Family Attributes available in GDS

Dear Travel Agencies:

At Copa Airlines we continue improving the flexibility we offer our passengers. That is why we would like to announce that it is now possible to view the attributes and conditions of our [fare family](#) scheme through the GDS. This fare scheme was designed to provide our passengers with more alternatives so that they can choose the fare that best suits their travel needs.

The attributes and conditions of our fare families will be available automatically at the time of quoting and booking in the Sabre, Amadeus and Travelport reservation systems.

To access our Copa Airlines Branded Fares Handbook for Travel Agencies, please go to the Travel Policies and Procedures section of the [Agency Portal](#).
