New Digital Affidavit for International travelers entering the United States

On January 12, 2021, the CDC issued an order requiring all passengers entering the United States to submit an Affidavit before boarding a flight.

To improve efficiency in collecting passenger information, Copa Airlines has developed a digital Affidavit that replaces the physical format that passengers had to download.

As of May 4, 2021, passengers traveling to the United States must complete the digital Affidavit at the following link: www.copaair.com/ustravelforms.

- The form will generate a voucher that the passenger must present to Copa Airlines personnel during check-in in digital or printed format.
- The boarding will be denied to passengers who do not present the voucher before flight departure time

See example of voucher [here](#).
