Preparing our passengers for travel with all immigration and sanitary travel requirements

Dear Travel Agencies,

In order to enhance our passengers' experience and facilitate their check-in before the flight, we have created visual pieces with the necessary information so that you, as a travel agent, can inform passengers about the immigration and health travel requirements necessary for their trip.

Some of the requirements are mandatory to board the aircraft. Therefore, we invite you to disseminate this information to customers who are about to travel.

Affidavit to enter Panama - Required to board the aircraft, any passenger who does not have the following requirement cannot be boarded:

- **QR Code to Enter Panama.**
 - It is required one form per passenger, which will generate one QR code per passenger.
 - The code generated by the system is unique and non-transferable.

Access to official information guide on health and immigration travel requirements:

[Video - vertical format](#)

[Video - Landscape format](#)

IMPORTANT: Use this material and share it through your available digital media (*website, social networks, email, or WhatsApp*) to your customers so they can prepare themselves before they arrive at the airport and avoid inconveniences at the boarding time.

To download all the elements, you can use the following [link](#) (This link will expire in 7 days, so we recommend downloading once you have read the information).

Here you can find the
Travel
requirements
