Nucleic-Acid Testing Requirement Update for China-bound flights operated by Juneyao Air

Dear passengers,

Due to the current coronavirus pandemic situation and related epidemic prevention and control requirements, passengers flying from Helsinki to China must go to the designated institutions for Nucleic-Acid Testing. Juneyao Air has updated the designated institutions issuing nucleic-acid reports shown below:

■ All passengers **must acquire PCR Nucleic-Acid Testing reports in the following institutions**: TERVEYSTALO, MEHILAINEN, AAVA and A5.

TERVEYSTALO: <https://www.terveystalo.com/>

MEHILAINEN: <https://www.mehilainen.fi/>

AAVA: <https://www.aava.fi/>

A5: <https://www.testaakorona.fi>

■ The health code could only be applied with the test results from the above-designated institutions. Passengers are required to conduct the PCR Nucleic-Acid Testing **twice** before departure.

Please visit the Embassy of China to Finland website regarding the Nucleic-Acid Testing requirements. http://fi.china-embassy.gov.cn/eng/lsw/202206/t20220629_10712135.htm

■ For **TRANSIT** passengers via Helsinki, please refer to the test guide through Juneyao Air website:
