

06.07.26 Operational Information

BUENOS AIRES EZEIZA AIRPORT

Operational Restrictions from 25/10 to 11/11

**From 25 October to 11 November 2026**, runway refurbishment works at Buenos Aires Ezeiza Airport (EZE) will result in **operational restrictions**.

The EZE–FCO service will operate via EZE–GIG–FCO, including a technical stop in Rio de Janeiro (GIG). The EZE–GIG and GIG–FCO sectors will not be available for separate purchase, as the service will be reserved exclusively for passengers travelling on the EZE–FCO route.

The direct FCO–EZE service will continue to operate, but with a reduced capacity of 233 seats instead of 319.
