

Agendar

October 2023

As of October 23, 2023, the sale of Additional Baggage in GDSs will be enabled for all flights operated by Aerolíneas Argentinas. In the first stage, the service will be available only to Amadeus and Galileo users, and it will be communicated in a timely manner when the rest of the GDSs are incorporated.

Terms and Conditions:

- The service can be sold up to 3 hours before the flight departure.
- The first suitcase has a differential value to the other 3 additional pieces of luggage.
- The maximum allowed is 4 additional bags per passenger per flight.
- The service is non-refundable.

Note: In the event of any modification to the itinerary, the agent must contact Aerolíneas Argentinas' helpdesk (helpdesk.en.mad@aerolineas.com.ar) before the departure of the flight to either re-associate the EMD or leave it open for 1 year. This action is necessary to avoid the loss of the paid service.

The advance sale of Additional Baggage is NOT available in the following cases:

- Reservations with connecting flights with another company.
- Flights operated and/or marketed by other carriers.
- Charter flights.
- Reservations with passive segments
- Passengers under 2 years of age.
