

WY - Schedule Change Policy for summer flight schedule changes

Oman Air informs about necessary amendments to their Summer flight schedule 2024 (valid 31Mar-26Oct2024) in all GDS-Systems. Days of operation to Munich and Zurich were adjusted to actual operations – for a short period, days of operation had been available in the systems which will now not be operated.

Munich-Muscat-Munich services will operate on days 1-345-7 while Zurich-Muscat-Zurich will operate 1-3-5-7.

For all bookings affected by these adjustments where Oman Air tickets (910) were already issued, the following options are available:

1.

1. One-time date change in the booking class (RBD) originally confirmed. Should this RBD not be available, then the next-lowest RBD in the respective cabin can be used.
2. For journeys beyond Muscat, adjust any connecting flights accordingly.
3. Re-routing to any other WY Gateway in Europe (FRA, MUC, LHR, CDG, MXP, ZRH, IST) in same or next-lowest RBD.
4. Change to departure or arrival ex/to FRA (instead of MUC) using a Rail&Fly train segment (W2) QYG-FRA or FRA-QYG at no extra cost. Booking classes W2: Y for all Economy class travel, F for all Business- or First Class travel.

IMPORTANT: Any re-issued tickets to be endorsed "INVOL CHG REF DEC2023-01"
